## **The Future is NOW**

### **Opening Ceremony**

Opening Ceremony: Inviting our Master Guides, Teachers and Angels to be present and receptive to us. We will set the energies of intention as a group/ collective consciousness, which will include a grounding process and chakra opening and balance.

Kari has been asked to talk about all the events that have taken place over the last year and how these events are playing a role in 2018 and beyond. Learn how can we prepare for these times. Learn the NEW Protocol for the New Consciousness and the New Mother Earth. Kari will be working with the Hathors through toning to bring through more of your Soul energy which WILL raise your vibration. Find out what The FOUR things ( O.P.U.S ) are that every light worker should know and apply! Come and experience the tones of Close Encounters Of The Third Kind The Return of ET which will help you to remember your Galactic origin and will include a Soul Initiation . Receive an activation of your translation device, tensor receptors and Learn all about spontaneous awakening and kundalini activation. Open Q and A, time permitting. Helping Souls Master the Human Experience.

Information on the Cities of Light: Please join us in bringing through the 8th City of Light.

A Clarion Call has been put out to anchor in Cities of Light over major areas of Earth. These Cities of Light are from the Omniverse and are here to help, they will bring through new frequencies to help humanity and all life. Once anchored in, these cities will include a shift in consciousness for Positive Change, new awareness, soul energy, spiritual gifts and remembrances. These Cities of Light are part of 13 involved planetarily in the transitioning of Earth to the 5th Dimension (Christ Consciousness energy)

Kari will bring through a Divine Equation/ Alpha Numeric specifically for this Star Gathering and the City of Light.

The Divine Equations are a way to engage with the Universal Language of Light, directly and symbolically. It is a way to connect to Angelic and Galactic language. It bypasses the mental body's need to know. The Angelic language through letters/ numbers helps one become aware of non-truths and eventually whole divine concepts are received into the body intelligence centers. It's like allowing the creation of space and time through harmonic sets applied to the letters and numbers that creates the geometry that directly affects your energy signature, that are then infused into the charka energy systems of the physical bodies. When certain calibrations are locked on, they allow access to many keys and encodings.

## **Closing Ceremony:**

Circle the Energy and Giving Thanks. A Special Blessing and final message for all.

## DAVE THE MYSTIC

Please join Dave the Mystic for a three part workshop.

In the first part, Dave will discuss and demonstrate muscle testing. A variety of systems will be presented and there will be participation with the attendees. Systems will include: testing others with kinesiology, self-testing with hands, pendulums and stickplates. Time permitting, several other more obscure systems will be shown. Dave also works with subconscious core beliefs and will have some statements for all participants to repeat to clear common blocks.

The second area for discussion will be David Hawkins' Level of Consciousness scale from Power vs. Force. Many variants of this system will be shown that are very helpful in day-to-day living both practically and metaphysically.

Finally, these tools will be used to provide a discernment on the hybrid energy mix of the attendants. In the recent past, ET hybrids were commonly viewed as the result of a biological pairing. Lately, Dave has seen many who have been "energetically" mixed with ETs, angelic energy, ascended masters, gods and goddesses and other entities. Dave will demonstrate how the percentage mix can be determined. Depending on the size of the group, hopefully everyone will end up with their own assessment.

## **The \*8\* Activations I AM attunements Presenting the 8192 and 136.1**

The egoic particle becomes only aware of the piece of itself in the infrastructure of integration. It detects how it moves, flows, thinks and reacts; marveling at its own motion as completion. It demands recognition of its genius apart from the whole that it fits into like an arm, which it believes itself to be the body. However, an arm can be removed from the total body and then cease to function. In this case the egoic arm demands to be its own working body to preserve its existence. We live in an age with artificial intelligence, emotional intelligence and spiritual intelligence. This is not a new development in our current environment. In truth we are changing timelines, and feeling great shifts of energy that can confuse us. Narcissism has permeated the civilizations for thousands and thousands of years. Shirley will be presenting the 8192 Activation, which separates The God Particle from the Egoic Particle and restores God connection to all existence and sovereignty as the divine right to its source. In this case our DNA will not be modified through quantum entanglement but by correcting the order of how frequencies are accessed. The number 8 activations kick out the illusion and bring in daily divine manifestation to give you back your control of your free will and not live the consciousness of the patterns of your ancestors and current frequencies. The 8192 and the 136.1 Heart in Motion will be presented.
